Portfolio: <https://williamskije.netlify.app/>

Professional Summary

- Frontend Engineer with a strong focus on frontend technologies in React.js, creating scalable applications.
- Skilled in optimizing web applications for performance and responsiveness, with a focus on user-centric designs.
- Proven ability to collaborate effectively in team environments, manage time efficiently and troubleshoot technical challenges.
- Proficient in React.js, Typescript, Javascript, Tailwindcss, and using Agile methodologies to deliver high quality projects on time.

Technical Skills

- HTML5
- CSS
- JavaScript
- React.js
- React Native (Expo)
- Vue.js
- Typescript
- Tailwindcss
- Bootstrap
- Git
- Github
- Responsive Design
- Cross-Browser Compatibility
- SEO Optimization
- Performance Optimization

Soft Skills

- Problem-Solving Ability
- Perfect Communication Skills
- Integrity, Grit & Trustworthiness
- Adaptability
- Teamwork and Collaboration
- Time Management
- Continuous Learning Mindset

Experience

FREELANCE FRONTEND DEVELOPER || POSITIVUS

Date (February 2025)

- Developed a web application for a digital marketing agency to streamline their services, including SEO, PPC, social media marketing, and content creation.
- Designed and implemented a responsive and visually appealing UI using React.js, ensuring an intuitive user experience across desktop and mobile devices.
- Optimized application performance and SEO, improving loading speed, accessibility, and visibility on search engines
- Utilized Tailwind CSS and component-based architecture to maintain clean and scalable code.
- Worked closely with backend developers to integrate APIs, ensuring seamless data flow between the frontend and backend.
- Ensured cross-browser compatibility and mobile responsiveness, enhancing usability across various screen sizes and devices.
- Conducted thorough testing and debugging to deliver a high quality, bug-free application.

TAOLTECH (2023 – 2024)

Frontend Developer

- I contributed to the development of a secure and user-friendly web section for a healthcare platform.
- Developed a responsive and accessible user interface for an EMR website using React, enhancing usability for healthcare professionals.
- Implemented complex forms and data input features, enabling seamless patient record management and ensuring compliance with data security standards.
- Collaborated with back-end developers to integrate APIs, displaying real-time patient information and appointment schedules within a user-friendly dashboard.
- Worked on integrating user interfaces that improved the accessibility and efficiency of digital medical records, while adhering to strict data privacy and compliance standards.
- Applied best practices in performance optimization, reducing load times and enhancing website responsiveness to improve user experience.
- Conducted cross-browser testing and debugging to ensure consistent functionality across various platforms and devices.
- Created interactive features such as patient search and record filtering to streamline workflows for doctors and administrative staff.
- Maintained project documentation and version control with Git, ensuring smooth updates and facilitating future development efforts.
- Collaborated closely with a multidisciplinary team to deliver a high-quality product within tight deadlines.

FREELANCE FRONTEND DEVELOPER || CHIDON SCHOOLS

Date (2020 – 2021)

- Designed and developed an intuitive, user-friendly interface for a school website using React.js, enhancing the online experience for students, parents, and faculty.
- Implemented responsive design practices, ensuring seamless functionality and accessibility across desktops, tablets, and mobile devices.

- Integrated dynamic content and interactive features, such as real-time announcements, event calendars, and forms, to improve user engagement and streamline communication.
- Collaborated with stakeholders to gather requirements, iterating on feedback to meet the school's objectives and branding.
- Optimized website performance by implementing lazy loading, image compression, and efficient coding practices, resulting in faster load times and improved SEO.
- Maintained version control using Git, documenting changes and updates to keep track of progress and ensure smooth handoff to future developers.

Educational History

Federal University Oye, Ekiti, Nigeria (2018 – 2021)
BSc. Computer Science

Graduation Date: Aug 2023

Certifications

- The complete guide to Javascript by Jonas Scmedtmann
- Altschool Africa Frontend Engineering (In view)
